United Technical Services WLL

Engineering excellence. Built on trust. Powered by innovation.

OIL & GAS | CONSTRUCTION | INDUSTRIAL SERVICES

ABOUT US

Who We Are

United Technical Services WLL is a dynamic, full-spectrum industrial services company operating at the intersection of engineering, construction, and workforce solutions. We serve the oil & gas sector, property developers, and commercial contractors with precision, reliability, and a forward-thinking approach that sets us apart.

Mission

Deliver world-class technical services with uncompromising safety and quality standards.

Vision

To be the most trusted industrial services partner across the Gulf region.

Values

Integrity, innovation, precision, and people-first partnerships.

OUR STORY

Built from the Ground Up

United Technical Services WLL was founded by a team of seasoned engineers and project managers who identified a critical gap in the market for the need for a single, reliable partner capable of delivering integrated technical solutions across multiple disciplines. From our first welding contract to multi-million-dollar MEP projects, every milestone has reinforced our commitment to excellence. Today, we stand as a trusted name across industrial, commercial, and residential sectors.

What We Deliver

Welding & Fabrication

Structural steel, pipeline welding, and custom metal fabrication to international standards.

MEP Services

Mechanical, Electrical, and Plumbing solutions for industrial, commercial, and residential projects.

Real Estate

End-to-end property development and construction management for commercial and residential assets.

Demolition & Metal Recycling

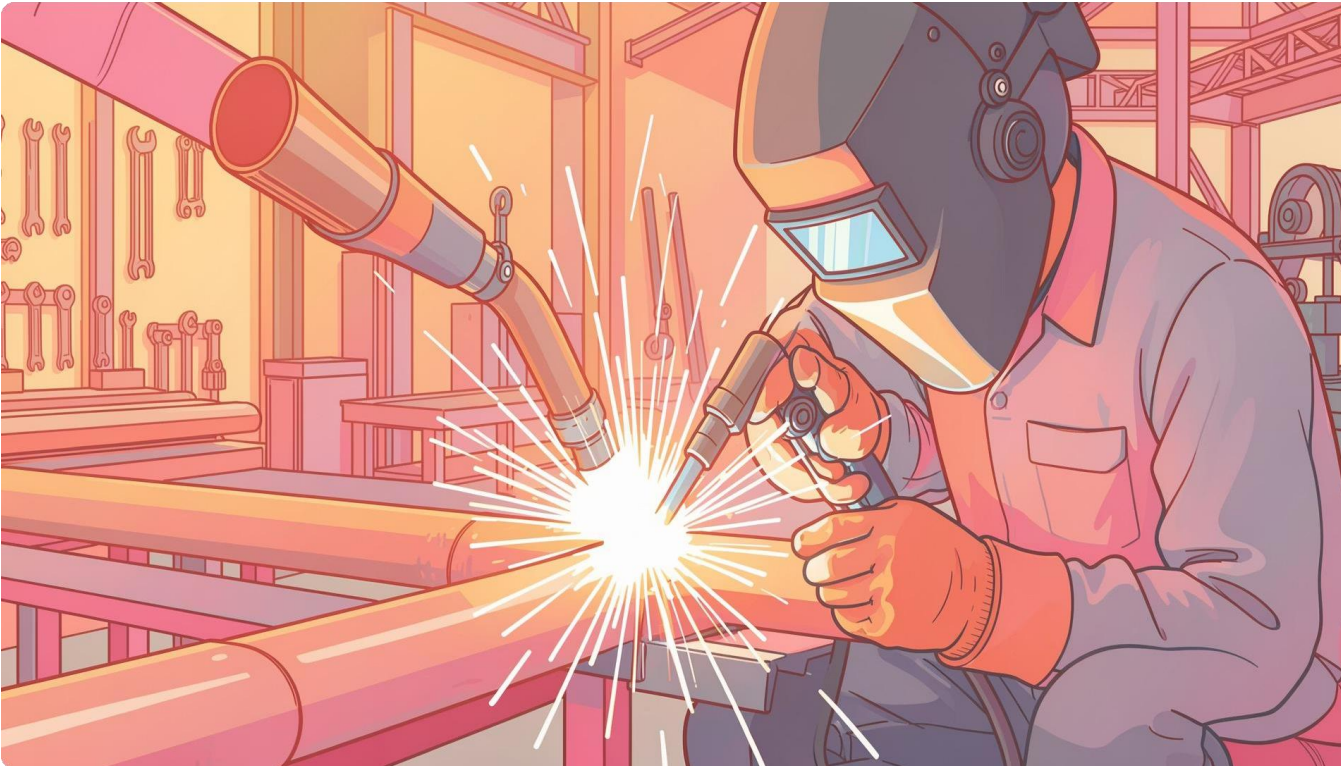

Safe, efficient demolition services paired with responsible metal recycling and waste management.

Manpower Supply

Certified, skilled, and semi-skilled workers deployed rapidly to meet your project demands.

Welding & Fabrication Excellence

Our welding and fabrication division is certified to meet the most demanding international codes including ASME, AWS, and API standards. We specialize in:

→ Piping & Structural Welding

High-pressure pipelines and structural steelwork for oil, gas, and petrochemical applications.

→ Custom Metal Fabrication

Bespoke fabricated components built to client specifications with rigorous QA/QC processes.

→ On-Site & Workshop Services

Flexible deployment 4 fully equipped workshop or on-site mobilization as required.

MEP

MEP

Mechanical, Electrical & Plumbing

We design and install integrated MEP systems for high-complexity environments — from offshore facilities to luxury commercial towers. Our certified engineers ensure compliance, efficiency, and long-term reliability across every installation.

- HVAC design & installation
- High-voltage electrical systems
- Industrial plumbing & fire suppression

Services – Explore Properties for Rent in Qatar & Real Estate Solutions

We provide an extensive portfolio of real estate services, including residential and commercial spaces to fit various client needs. From purchasing a new house to establishing a business branch, we walk with you throughout your entire real estate journey.

Our services include property rentals, sales and brokerage, focusing on the available properties for rent in the Qatar market, such as premium **office spaces**, large-capacity **warehouses**, selected retail units, and maintained **labor camps** for employee housing. With our experience in the Qatar property market, we strive to provide matched clients with spaces best suited to their lifestyle or business aspirations.

In addition to rental and sales services offered in other markets, we also provide multi-level comprehensive property management geared towards helping owners retain value and functionality over time with their investments. Our managed properties supersede expectations by guaranteeing budget neutrality while paying all operating expenses; peaceful revenues from professionally outsourced tenant coordination and maintenance through rent collection coupled with legal compliance contracts.

Executing exceptional professional care, regardless of whether you are looking for the most competitive properties for rent in Qatar or managing your real estate portfolio, is what we stand for as a team. Ensuring ever met client expectations regarding timely service delivery preceded efficiency blended together with rigorous procedural transparency anchored in professionalism.

DEMOLITION & RECYCLING

Responsible Demolition. Sustainable Recycling.

We combine engineering precision with environmental responsibility. Our demolition teams operate with full safety compliance while our metal recycling program ensures maximum material recovery & reducing waste and delivering measurable value back to our clients.

Safe Demolition

Controlled structural demolition with zero-compromise safety protocols.

Metal Recovery

High-yield scrap metal sorting, processing, and recycling.

Site Clearance

Complete site preparation and waste removal for next-phase construction.

The Right People. Right Now.

Our manpower division maintains a ready pool of vetted, certified, and experienced personnel from welders and electricians to project supervisors and HSE officers. We mobilize fast, so your project never loses momentum.

Skilled Trades

Welders, pipefitters, electricians, plumbers, Heavy and Light Drivers

Supervision

Site foremen, project coordinators, HSE officers

Flexible Contracts

Short-term, long-term, and project-based deployment

WHY CHOOSE US

The United Technical Advantage

One Partner All Disciplines

From welding to workforce, we eliminate vendor fragmentation & delivering integrated solutions under one accountable roof.

Certified to International Standards

Our teams are trained and certified to ASME, AWS, API, and ISO standards & ensuring quality that meets the world's toughest benchmarks.

Rapid mobilization

We deploy quickly and scale to project demands & minimizing downtime and keeping your operations on schedule.

Build on Long Term Trust

Our client relationships are founded on transparency, consistent delivery, and a genuine commitment to your project's success.

Partner with Us

United Technical Services WLL is ready to bring engineering excellence, a skilled workforce, and integrated technical solutions to your next project. Let's build something great together.

5+

Core Service Divisions

Welding, MEP, Real Estate, Demolition,
